For Houses Being Built In Flood Zone Areas

The regulation to build at or above the required flood elevation has been explained to me. I understand that areas below the required elevation may only be used for the parking of vehicles, building access (staircase or floodproofed elevators) and limited storage for equipment necessary for lawn or building maintenance. I understand that to enclose beneath the required elevation, there are strict requirements pertaining to hydrostatic vents or breakaway walls depending on the flood zone in which the building is located and that there can be no partitioning of rooms. I further understand that should I violate any of these regulations I may be required to remove the enclosure, that my insurance carrier may be notified and that further remedy may be sought through the courts. _____ Initial
